

CHATEAU LA MISSION HAUT-BRION

La Chapelle de La Mission Haut-Brion 2005

Château La Mission Haut-Brion's tasting notes :

Intense color. Soft, very fruity nose.

This wine has better than average structure and predominantly red fruit flavours. Barrel ageing will unquestionably add a sophisticated touch to the powerful tannin, and contribute to producing a very attractive wine.

Weather conditions

Sum of temperatures : 3492 °C

Rain : 229 mm

Days where temperature above 30 °C : 32

Harvest : from 24/08/2005 to 26/09/2005

Current vintage notes

2005 will remain in our memories as a historically dry year. This characteristic showed up already in winter when an important deficit of humidity was noted. In spite of a wet month in April, rain remained scarce right up to the vendanges. All year long the temperatures stayed on the high side. 2005 had climatic conditions very similar to the legendary vintage of 1949. Because of these elements the vines were able to produce small grapes of an extraordinary concentration, actually never before achieved, that would be harvested in a perfect condition. The vendanges started on August 24th for the whites and on August 31st for the reds, placing the vintage alongside other years with unduly early harvests.
