

CHATEAU LA MISSION HAUT-BRION

Château Laville Haut-Brion 1998

Château La Mission Haut-Brion's tasting notes :

This wine exhibits an abundance of fresh fruit flavors, with a prominent layer of white peach, complemented by more exotic fruits: mango, pineapple and litchi. The wine is also surprising in its freshness, revealing notes of fresh mint and anise.

In addition, it is a well-structured wine, with a fine balance, very gentle and elegant through to the lingering aromatic finish.

This is a fine specimen of Laville Haut-Brion.

Weather conditions

Sum of temperatures : 3354 °C

Rain : 537 mm

Days where temperature above 30 °C : 22

Harvest : from 15/09/1998 to 30/09/1998

Current vintage notes

Very rainy month of April. This characteristic proved remarkably useful as the month of May was dry, June normal, July normal largely due to two days of storms with very heavy rain. August was one of the driest on record and in September the downpours only began after September 25th.
