

# CHATEAU LA MISSION HAUT-BRION

## Château La Mission Haut-Brion 1972

Château La Mission Haut-Brion's tasting notes :

This is the coldest and latest-starting year of any in the last 40- which is as far back as precise statistics go. The rainfall was normal. Despite fair, dry weather for the harvest, all the '72's are marked by the lack of sun due to the cool and very wet September (15 C average). The wines are marred by a strong greenness and herbaceousness.

To taste now.

Weather conditions

Sum of temperatures : 2900 °C

Rain : 331 mm

Days where temperature above 30 °C : 5

Harvest : from 08/10/1972 to 14/10/1972
