

CHATEAU LA MISSION HAUT-BRION

Château La Mission Haut-Brion 1975

Château La Mission Haut-Brion's tasting notes :

The color is very dense. From the start the nose is extraordinary, very rich and potent, with truffle bursting through all along the way. It has the great aromatic complexity of top Bordeaux. In the mouth the tannin infused with all these aromas fills the space. It is exceptional. When one reaches the finale one finds it slightly dry, showing several wrinkles. This superb wine has not yet reached its apogee but is getting near to it.

To taste rather between now and 2020.

Weather conditions

Sum of temperatures : 3250 °C

Rain : 362 mm

Days where temperature above 30 °C : 16

Harvest : from 25/09/1975 to 08/10/1975

Current vintage notes

June, as well as July, were very hot. September, on the other hand, was variable. Fair weather for the harvest. Everywhere, rich and powerful wines which will require a long time in the bottle to develop fully.
