

# CHATEAU LA MISSION HAUT-BRION

## Château La Mission Haut-Brion 1982

Château La Mission Haut-Brion's tasting notes :

This wine shows a good density of color. The nose of this great wine is pure. The blackcurrant dominates the fruit and then come notes of the truffle, soft, ripe and delicate. In the mouth the attack is savoury. There is great harmony in this soft though tannic wine throughout the tasting right up to the finale. Tannic strength combines with the grand softness and unctuousness of the ripe fruit. Its pulp fills the mouth with pleasure. This is a very great bottle for this already legendary millésime.

To taste rather between now and 2040.

Weather conditions

Sum of temperatures : 3300 °C

Rain : 290 mm

Days where temperature above 30 °C : 18

Harvest : from 15/09/1982 to 24/09/1982

Current vintage notes

It is very seldom that such good conditions are met. April was very dry and hot. June slightly thundery. A hot summer followed 40°C on July 8th. Very hot during the harvest. Excellent weather conditions to produce a great wine.
