

CHATEAU LA MISSION HAUT-BRION

Château La Mission Haut-Brion 1983

Château La Mission Haut-Brion's tasting notes :

The color is very dense. The nose of this La Mission contains all the various aromas of burnt wood, caramel, tobacco, and cocoa powder. This is portrayed a very good bottle right at the beginning of the tasting in the mouth. Great tannic density completely dominates the fruits. The finale is a little more difficult and slightly dry as the harmony of this great beginning diminishes a bit. On the whole it is a wonderful bottle that is tannic and still strong.

To taste rather between now and 2020.

Weather conditions

Sum of temperatures : 3351 °C

Rain : 437 mm

Days where temperature above 30 °C : 24

Harvest : from 26/09/1983 to 07/10/1983

Current vintage notes

Wet spring-June was dry and very hot during two weeks. A hail storm on July 3rd and 4th. August was hot but humid somewhat like a tropical climate. Beautiful weather during the harvest.
