

# CHATEAU LA MISSION HAUT-BRION

## Château La Mission Haut-Brion 1986

Château La Mission Haut-Brion's tasting notes :

The handsome color has already evolved some. The tasting is marked by both the great softness at the base as well as notes or scent of rather heavy wild game. The whole has a beautiful harmony. Its rich aromas, its softness, its chunkiness make a particularly rich bottle with an aptitude to age well. This wine can be drunk as of now with much pleasure but will easily age well for another 10 to 20 years.

To taste rather between now and 2020.

Weather conditions

Sum of temperatures : 3050 °C

Rain : 386 mm

Days where temperature above 30 °C : 19

Harvest : from 29/09/1986 to 10/10/1986

Current vintage notes

A rather cold spring. Hard weather conditions in June for the flowering. A hot and dry summer carried through until the end of the harvest period.
