

CHATEAU LA MISSION HAUT-BRION

Château La Mission Haut-Brion 1988

Château La Mission Haut-Brion's tasting notes :

The color is dense and slightly matured. The nose is powerful and rich (very La Mission) with a complexity that is classic for this wine. The scents of blackcurrant, cedar wood, purple ink, plus a trace of leather are all there. The volume of the tannin has a tendency to overwhelm the fruit in the mouth. This tannin is taut, still strong and powerful. Bit by bit the silkiness of the wine emerges, dominating the end of the tasting. Its finale is very long. It has splendid structure. A magnificent bottle that is very typical of La Mission.

To taste rather between now and 2030.

Weather conditions

Sum of temperatures : 3230 °C

Rain : 365 mm

Days where temperature above 30 °C : 12

Harvest : from 28/09/1988 to 14/10/1988

Current vintage notes

Both winter and spring were very humid while the summer was dry but not very hot. A little rainfall in September. The ripening of the grapes was good and the skins were thick and rich. The wines produced are powerful with a beautiful structure.
