

CHATEAU LA MISSION HAUT-BRION

Château La Mission Haut-Brion 1998

Château La Mission Haut-Brion's tasting notes :

This wine has a handsome color of deep, fresh, ruby red. The nose is not completely open due to the great structure of its tannins. The equilibrium of the wine is remarkable with mature fruit already evident. Its emerging strength, though only slightly developed, indeed insinuates the richness to come. This is a great bottle in the making. The finale is suave, soft and tannic all at the same time. It is an exceptional bottle for its density.

To taste rather between now and 2040.

Weather conditions

Sum of temperatures : 3354 °C

Rain : 537 mm

Days where temperature above 30 °C : 22

Harvest : from 15/09/1998 to 30/09/1998

Current vintage notes

Very rainy month of April. This characteristic proved remarkably useful as the month of May was dry, June normal, July normal largely due to two days of storms with very heavy rain. August was one of the driest on record and in September the downpours only began after September 25th.
